

Gentlemen, as a small market broadcaster I would find the recording of all my programming an additional burden in a market tough enough to get a profit from already. I do understand and agree with you regarding the loose lipped Shock Jocks. however I believe it will quickly subside as a result of your new fine system. Not only should you fine the stations but I believe the DJ's themselves should also bare a healthy burden in that process. I thank you for your time.

Jim Squires
